“The Republican plan to privatize Social Security and Medicare could gamble away seniors’ hard-earned retirement. Our nation’s retirees deserve better.”

– GRACE MENG

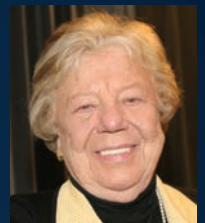

“Washington Republicans – in their zeal to protect tax breaks for millionaires – may adopt a dangerous scheme to privatize Social Security and Medicare. The result? **Your retirement safety net could be left in the hands of the same type of reckless Wall Street investors that almost bankrupted our nation.**

In Congress, I’ll be a loud voice that says no to any scheme that could destroy what should be the golden years for our seniors. And I’ll fight to make sure the wealthy pay their fair share of our nation’s health care costs, instead of getting just another tax break.”

“Grace Meng possesses a keen eye for fairness. In Congress, nobody will fight harder to protect Queens’ seniors.”

– FORMER QUEENS BOROUGH PRESIDENT CLAIRE SHULMAN
