“In Congress, I’ll fight for every Queens child, as if they were my own.”

Grace Meng
DEMOCRAT FOR
CONGRESS

Better schools. A better future.

“I was lucky. As a child, my parents sacrificed everything to send me to the best schools they could. From Stuyvesant High, to the University of Michigan, and ultimately to Yeshiva University Law School – **my education inspired a commitment to public service and a desire to provide the same opportunities for all Queens children.**”

In Congress, Grace Meng will:

- **fight to make college more affordable** – by keeping student loan interest rates low and extending the tuition tax credit.
- **push for investments in math, sciences, and engineering** so students are prepared for well paying high-tech jobs.
- **address the shortage of schools and afterschool programs in our community.**
- **support our City and State Colleges and Universities – and our vital Community Colleges** – with federal investments and through partnerships with businesses.

Join me in fighting for our schools.
Our future depends on it.

In the June 26th Democratic Primary, VOTE
